HI, WE'RE WAE!

WAE
work available everywhere

WAE is an on-demand scheduling software that supports staffing by easily managing vacancies, substantially reducing time spent scheduling, and helping departments to census in a fraction of the time.

WAE IMPACT

REAL JOB SATISFACTION - Mobile control, schedule flexibility and transparency.

BETTER OUTCOMES - Connect your staff to your urgent shift needs.

CUSTOM IMPLEMENTATION - Tailored onboarding and on-going support from our team.

POSITIVE ROI - Overall reduction of administrative burden and on-demand data analytics.

Centralized staffing: automated

WAE leverages your internal workforce and fills in the holes in your schedule with our vetted and certified contingent labor force.

Protect your shifts and placements

Guarantee placements and staff using WAE's shift swap and reliability score systems. Better track your staff attendance to make sure openings are filled.

Instantly post multiple shifts and get real time status updates

Easily track fill ratios, available staff, system wide shifts, and other metrics to help make informed decisions about your scheduling

TECH POWERED. TRUST POWERED.

FLEXIBLE. RELIABLE. EVERYWHERE.

WAE makes it easy to connect with thousands of workers ready to work your urgent shifts.

YOU POST SHIFTS

WAE hosts everything, whether its one-time, seasonal, or temporary-to-permanent. Schedule your internal staff and open shifts for external per diem workers.

STAFF ARE GIVEN REAL TIME UPDATES

Staff members can track their shifts and communicate scheduling needs with management.

BETTER MANAGE SCHEDULING WITH CENTRALIZED STAFFING

Track live metrics about your shifts and openings. WAE helps you make better informed staffing decisions
